

PLENUM BOXES

Polyaire manufacture an extensive range of Sheet Metal Plenum boxes to suit all Supply, Return, Relief and Exhaust applications.

Construction is from Galvanised Steel or Zincanneal in material thicknesses as specified.

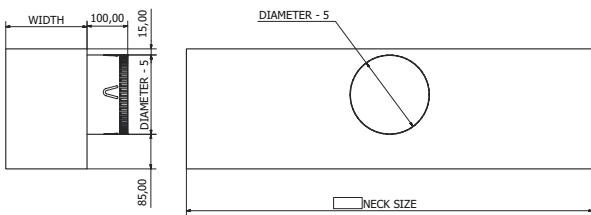

Uninsulated (Plain) Plenum Boxes are generally used for exhaust applications while insulated.

Plenum Boxes are used for Supply, Return and Transfer applications.

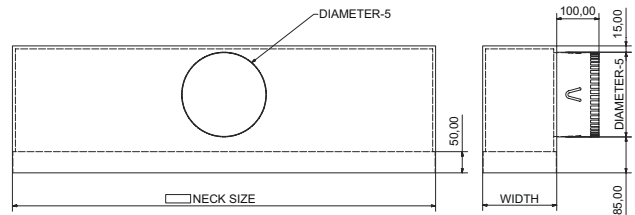

Plenum boxes are commonly used on supply air applications for continuous Slot Diffuser or Linear Bar Grilles.

Insulation requirements are application specific and include 6mm, 25mm and 50mm Polyester, Black Face or lined with Acoustic Sisalation.

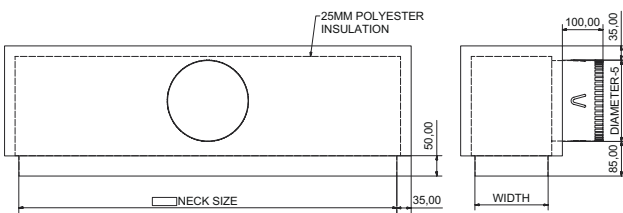

Plenum Boxes are manufactured to order in a wide range of sizes to accommodate the Diffuser, Register or Grille.

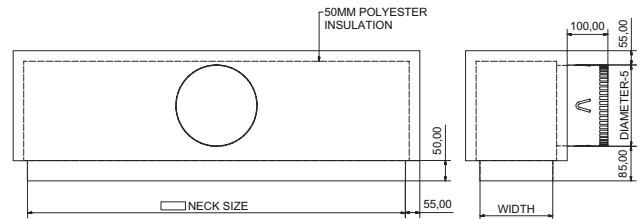

MODEL PPBX
(Plain Plenum Box)

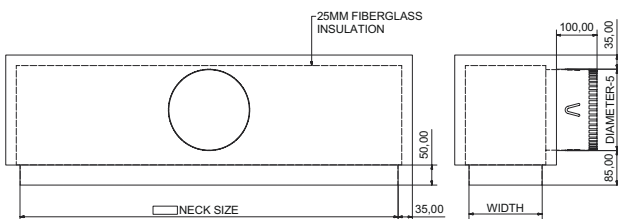

MODEL INSPB-6
(Insulated Plenum Box - 6mm Foam)

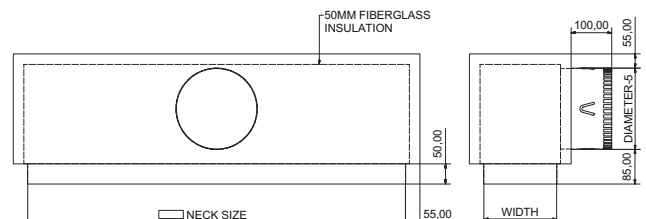

MODEL INSPB-25P
(Insulated Plenum Box - 25mm Polyester)

MODEL INSPB-50P
(Insulated Plenum Box - 50mm Polyester)

MODEL INSPB-25F
(Insulated Plenum Box - 25mm Fibreglass)

MODEL INSPB-50F
(Insulated Plenum Box - 50mm Fibreglass)
