

ROUND DIFFUSERS

Model PCD

The Polyaire Round Ceiling Diffuser is manufactured from high impact ABS for long term strength and rigidity. It is fully adjustable by rotating the centre cone from total shutoff to fully open.

The standard colour is off-white, the outer surface is lightly etched to reduce reflection and fit unobtrusively with most decors. Available in 3 sizes, it allows for smooth quiet airflow that flows out in a concentric pattern across the ceiling, to provide good coverage in both cooling and most heating applications.

Sizes Available/Dimensions

Item Number	Description	A	B	C	D	E	F	G
235384	150mm diam Round Ceiling Diffuser	150	185	247	265	73	95	16
